

Luxaflex®
EVO MagnaTrack
Awnings

Internal roller brush to prevent insects and dust from getting inside the awning and helps keep the fabric clean

Heavy Duty Bottom Rail to allow for smooth operation & consistent operation

The most innovative Luxaflex Window Fashions have been brought to the homes of Australians for over 65 years.

This tradition continues today with the introduction of the most innovative straight drop awning ever developed - the Luxaflex Evo MagnaTrack Awning.

Engineered and tested in Australia to handle our diverse and unforgiving conditions - the Luxaflex Evo MagnaTrack Awning is the most technologically advanced awning available on the market.

The Evo MagnaTrack Awning harnesses the power of Rare Earth Neodymium Magnets within the side channels to hold the fabric in place providing a smooth flat finish with unparalleled strength allowing it to be left down in windy conditions.

Australia's first and only Self-Correcting Awning System

With our patented magnet technology, the Luxaflex Evo MagnaTrack Awning is the only straight drop awning system in Australia that has a self-correcting feature allowing the fabric skin to effortlessly return into the channel should it ever become dislodged - reducing costly service calls.

This can happen if the awning is accidentally operated with an object underneath the bottom bar or if the awning is operated in very windy conditions which can jam up the fabric. The self-correcting feature can be done quickly and easily by using the awnings remote control.

Neodymium magnets provide 200kg* of magnetic force

Patented Self Tensioning Magnetic Track system

The magnetic force in the track system allows the fabric to move while under wind pressure as it floats within the channel.

After the wind pressure subsides, the magnetic bond of the neodymium magnets will automatically re-tension the fabric back to its original appearance - a world first in functionality which goes far beyond what a standard zipped system can do.

This also allows the Evo MagnaTrack Awning to be left down in windy conditions to both enhance and protect your outdoor space.

Rare Earth Neodymium Magnets

The technology behind the Evo MagnaTrack Awning lies deep within its patented design. The side channels employ the use of Rare Earth Neodymium Magnets in both the side track and the adjustable track insert that hold the fabric.

These magnets are the strongest and most powerful magnets commercially available and on an average sized awning, provide over 100kg of magnetic force on each side keeping the fabric on the awning looking beautifully smooth, flat and taut.

*Per average blind drop of 2.4m

Motorisation Options

The largest and most trusted names in home automation are used with Luxaflex Window Coverings to power its vast product range. The Evo MagnaTrack Awning is exclusively available with Merger® or Somfy® motorisation options. These are also available for the entire Evo Awnings range providing convenience from a single control point.

Coordinate with existing Evo Awning collection

The Evo MagnaTrack Awning has been designed to integrate seamlessly with the entire Luxaflex Evo Awning range and is available in 6 colours which coordinate with the most popular Colorbond® and Dulux® colours.

Ultrawide spans with premium Spectra Fabric

The Luxaflex Evo MagnaTrack Awning can accommodate widths up to 6.5 metres and drops of 4 metres and is exclusively available with our premium fibreglass fabric range – Luxaflex Spectra Screen. This fabric range features a sophisticated twill weave with subtly elegant diagonal patterns and is available in a range of contemporary colours to suit all homes.

Save up to 60%¹ on your home cooling costs

Awnings such as the Evo MagnaTrack can also create substantial savings on a home's cooling bill. Considering that up to 87%² of a home's heat gain in summer is through the windows, external shading from Evo Awnings can reduce cooling energy costs by up to 60%¹ per cent. When combined with Luxaflex Spectra Screen's ability to eliminate up to 95%³ of heat from solar radiation, the Evo MagnaTrack Awning can bring you long term savings and help you feel comfortable all year round.

The Luxaflex® Difference

Innovation is our Heritage

Luxaflex Window Fashions has been a leading brand in Australian homes since 1954. With a Dutch heritage, design and innovation are at the core of the brand. Since the invention of the Aluminium Venetian Blind, the company behind the Luxaflex brand has continued to expand the Australian product range, combining the best of international and local innovations.

Industry Leading Designs

Many of our products are patented and exclusive to Luxaflex Window Fashions. Our entire range is engineered and thoroughly tested to meet the high quality standards of the brand, but also to deliver high performance in our harsh Australian environment, and to maintain the quality appearance for the life of the product.

Child Safety

We understand the importance of safety in the home, especially for those with young children and pets. That's why all Luxaflex Window Fashions are designed with safety in mind and are compliant with the latest ACCC Child Safety Regulations to ensure they can be operated in a safe manner.

Australian Made Quality

Most of our product range is made to measure in Australia from components and materials made in our Australian factories or sourced from around the world. Our commitment to supporting Australian manufacturing provides local jobs to Australians and ensures we maintain strict control of our quality standards and faster lead times for our customers.

Peace of Mind

You have complete peace of mind when investing in quality Luxaflex Window Fashions. We stand behind our products by offering a 5 Year Manufacturer's Warranty# supported by the world-wide market leading company.

Personalised Service

All Luxaflex Window Fashions are custom made to your exact window requirements so they fit perfectly. Our Luxaflex Window Fashions showrooms provide the ultimate experience to make it simple and easy - from your initial enquiry and showroom visit through to the after-sales service.
